

After Market Police Vehicle Theft Prevention Devices Can Mitigate Many Risks

The theft of any police equipment presents significant risks, but when the theft of a police vehicle occurs, such risks may be drastically increased. Numerous recent thefts of marked police unit incidents are listed below, highlighting how police vehicles can be quickly stolen.

[A Man Who Stole a Police SUV and Shot at Two Officer in Two States, Was Arrested in Gloucester County](#)

[Women, Steals Temple Police SUV, Goes on Joyride](#)

[Police: Stolen Cop Car Lead to Savannah Chase, Officer-Involved Shooting](#)

Although no specific product is endorsed or recommended, the Gloucester Township Police Department has utilized the [Tremco Police Vehicle Anti-Theft System](#) for many years. This device is installed after-market and typically costs less than \$125.00 (not including installation). This minimal cost may be well worth the investment to prevent the theft of a police vehicle that will likely result in property damage, significant injury, or even death.
